

## Panel mechanism & Flat panel floor/furniture lift

New ideas, driven from clients' requests!

The new panel extension mechanism, **PA-WLH series**, designed by Unitech Systems, provides horizontal extension from wall or furniture surface level up to 300mm, giving the ability for your flat panel to appear from inside the wall!

Combined with FPLTS flat panel floor/furniture lifts or with FPLSR flat panel floor/furniture lift with side rotation, PA-WLH series provide complete disappearing of your flat panel with no compromises in their utility!
